Bringing Smart Living Outdoors

SMART
OUTDOOR
LIVING

At Smart Outdoor Living we strive to give our customers a smart, innovative, and elegant outdoor living space. We combined our renowned craftsmanship with technology to accomplish that goal.

At Smart Outdoor Living we look at every project as a partnership with our clients.

With our leadership having 35+ years of combined construction experience and one of StruXure's leading dealers in the Chicagoland area you can rest easy knowing you are in good hands.

STRUXURE

StruXure was founded in 2011 with a goal to design a superior pergola and to improve the outdoor living space. The original StruXure system has been improved and perfected since its inception in 2011

StruXure is the leading pergola company in America focusing on innovation and design. Each StruXure system is manufactured entirely in the U.S.

StruXure provides the modern-day pergola that has the technology to open, close, pivot, and slide depending on your needs.

Bring the indoors out by investing your vacation dollars into your new 'favorite' space. Create a vacation destination in your back yard and safely enjoy the outdoors in a space protected from the weather.

PERGOLA X

Each Pergola X is engineered to exceed all standards and expectations. Each StruXure system is fabricated and powder coated to order, made to exact specifications, which makes for a better fit and finish and a cleaner-looking system.

Ideal for any outdoor living areas, such as patios, decks, verandas, entryways, courtyards, outdoor kitchens, swimming pools, and spas. It's a perfect enhancement for patron comfort at country clubs, restaurants, hotels, resorts, theme parks, and sports venues.

Every StruXure system is constructed from fully-extruded aluminum and stainless steel components. StruXure uses a premium architectural grade powder coat on all its standard components. A chemical textured powder coat makes a scratch-resistant surface while giving it a matte finish that is on-trend for outdoor design today.

SMART OUTDOOR LIVING

RANGE OF MOTION

170° Manual Operation

150° Motorized

Closed —

When closed, the patented louver design interlocks, providing a solid shelter from the rain. Water is pitched into the system's 360° integrated gutter system.

Angled In \

Shaded space provides protection from the harmful effects of the sun. The Pivot provides SPF protection and allows you to spend more time outdoors without added sun exposure.

Opened |

Allow maximum light into your space with the louvers fully opened. Minimizes resistance and uplift in high winds.

Angled Out /

Angled louvers provide cool shade and air flow without blocking your blue sky view.

SOLUTIONS FOR YOUR SPACE

Each StruXure can be customized to meet virtually any existing architectural elements.

StruXure's philosophy is "if it can be designed and engineered, we will build it." Truly amazing designs can be created to meet your exact requirements—however demanding, unusual, or eccentric. We take pride in making your StruXure system one of a kind. With so many options and limitless possibilities, how do you know where to begin? Our product specialists can help you design a StruXure for your outdoor space that is uniquely yours.

THINKS ON ITS OWN

with Artificial Intelligence

Welcome to the smarter side of outdoor living. The StruXure Outdoor app by Somfy® provides the ultimate control of your outdoor living environment from the palm of your hand. It's just one of the ways StruXure continues to innovate, continually perfecting its products through applied design and advanced technology to provide the best customer experience.

StruXure Outdoor app by Somfy® Technology provides users with a variety of programming options including:

REMOTE CONTROL

Damp rated hand-held remote offers a traditional means of controlling your system.

WIRELESS WALL SWITCH

Wireless wall switch can provide a wide range of control over your system from inside or outside the home. No wiring or electrician required.

MYLINK™

Optional MyLink™ enables full control via StruXure app to control your system on any smart device. MyLink™ is the integration source for a variety of control options for your StruXure system.

HOME AUTOMATION INTEGRATION

Optional MyLink™ enables you to integrate with most home automation systems, including Creston, Control 4, Savant, Elan, RTI, URC, Brilliant Tech and more

VOICE CONTROL

Operate your system through simple voice commands by integrating leading technology, including Amazon's Alexa, Google Assistant and more.

Optional Wind Sensor

When winds reach 60 MPH the wind sensor will automatically open the louvers to allow wind to move freely throughout the system. This will minimize uplift during high wind conditions.

Optional Rain Sensor

Our sensors will automatically close the pergola upon detection of rain. Never worry about wet cushions. Intuitive automation does the thinking for you.

Optional Snow, Ice Sensor, Freeze Sensor

The intuitive system will react to prevent your louvers from sticking together and causing damage to your system. (Coming Soon)

Host any type of gathering with integrated lighting control.

When the bugs come out, let the screens come down.

Screens offer shade from sunlight and help you control the temperature.

As new innovations roll out, your system will be ready for easy installation.

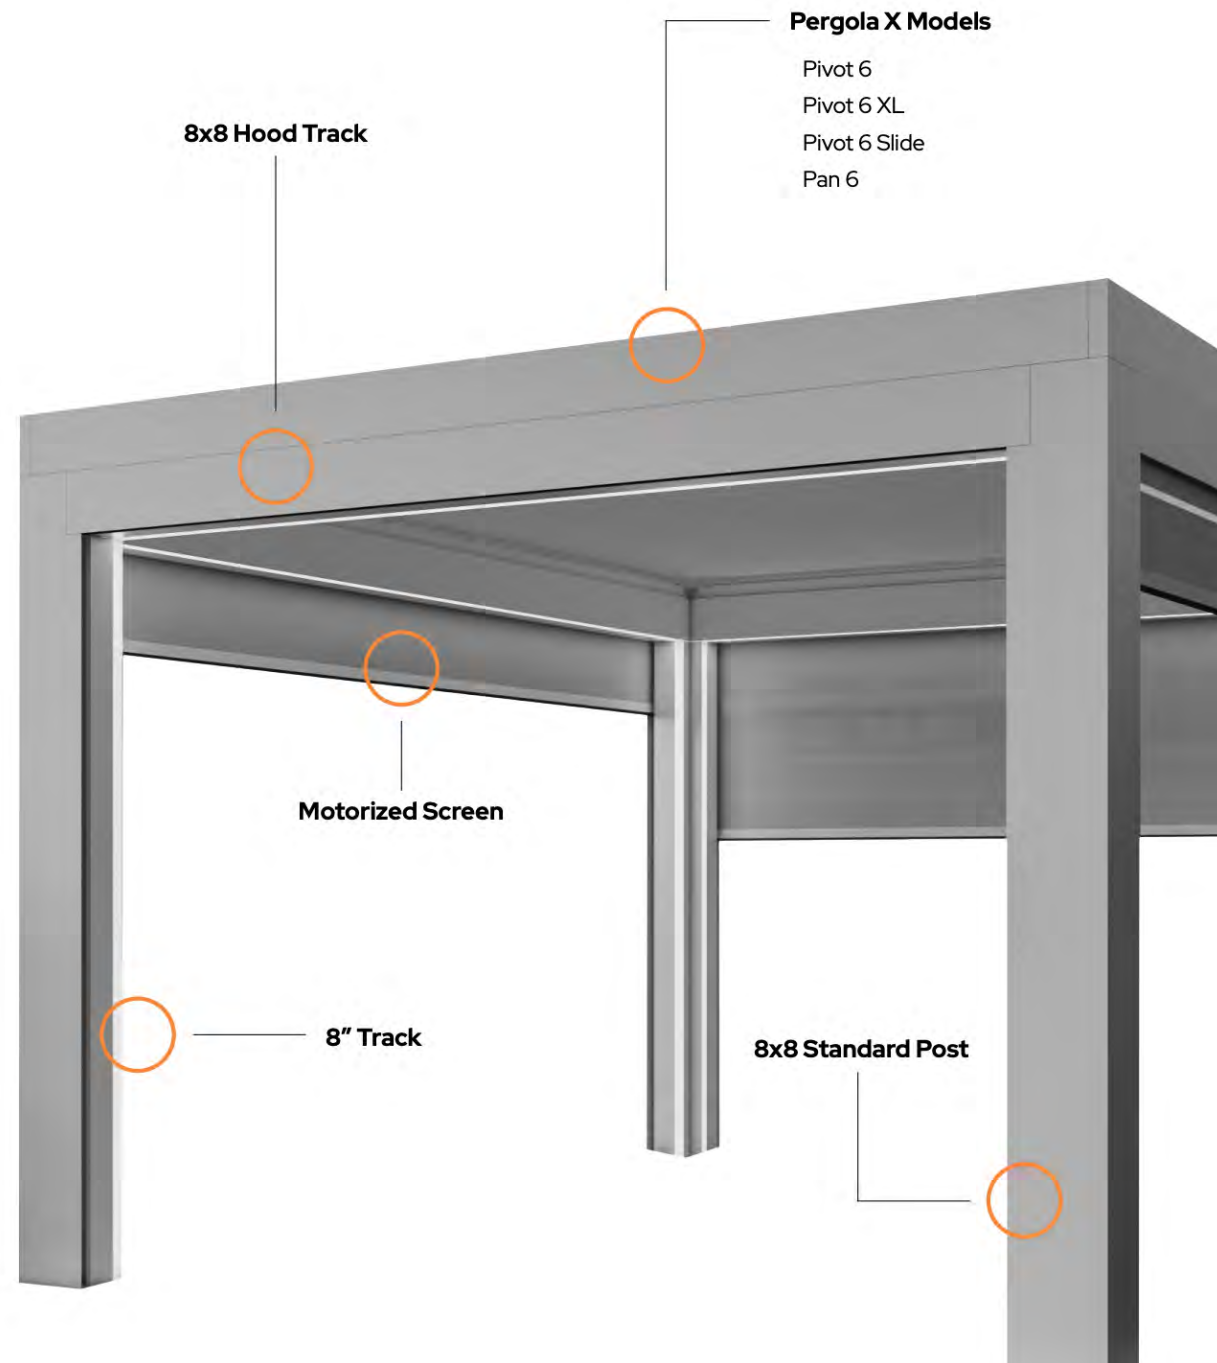

THE ULTIMATE STAYCATION

Create a vacation destination right in your back yard

EXPLORE THE TRAX SYSTEM

The TraX system is fully integrated into the overall functionality of the Pergola X, whether it's a new build or an existing StruXure. The hood allows for the installation of any Somfy®-compatible motorized screen. Now you can adjust both your louvers and your screens for maximum comfort and protection.

COMMERCIAL & ROOFTOP SOLUTIONS

StruXure Pergola Systems are perfect for expanding your commercial and restaurant/dining space.

Restaurants are reporting a 65% increase in gross profits by adding an outdoor space. With the ability to install fans, heaters, and screens it's the perfect solution for the ever-changing Chicago climate. Turn key options exist versus completely customized designs for your concept.

The lightweight extruded powdered coated aluminum is an ideal option for any rooftop patio. There are different options available for a variety of spaces to meet most any budget.
